1. The first part of the document is a letter from the President of the United States to the Congress, dated January 1, 1901. It is a message of congratulation to the Congress for its opening session, and it contains a statement of the President's policy for the year. The President states that his policy is to maintain the peace and to promote the prosperity of the country, and he expresses his confidence in the Congress to carry out its duties.
